WORK EXPERIENCE

2024 - 2025

INTERNSHIP - WINCOM CONSULTING S.L

- Participated in the development and maintenance of Windchill extensions using Maven-based Java projects, JSP, HTML, CSS, and Wincom's proprietary technology.
- Gained basic experience with Azure DevOps pipelines for continuous integration (CI) and change verification.
- Managed code versioning with GitHub, including commits, repositories, branches, and collaborative workflows.
- Used Atlassian tools for company forum communications, Jira for task management, and Microsoft Teams for team collaboration and meetings.
- Designed and executed test plans covering verification, validation, and application security, using JUnit for automated testing.

2024-2025

DEVELOPER - COPAY (TRANSVERSAL PROJECT STUCOM)

- Developed a group expense-sharing application as part of an academic project.
- Used Java with Maven and Spring for backend development, and Kotlin with Jetpack Compose for the Android frontend.
- Built and integrated RESTful APIs with custom endpoints.
- Designed and implemented CRUD operations secured by JWT-based authentication.
- Applied layered architecture principles with Controllers, Services, DTOs, Validations, and other design patterns.
- Managed code and project workflow through GitHub Projects, organizing backend and frontend repositories with structured branching strategies.

FORMAL EDUCATION

2023 - 2025

Advanced Vocational Training in Application Development - *STUCOM*

2020 - INCOMPLETE (TWO YEAR COMPLETED)

Studies in Architecture - *ETSAB UPC*

SUPPLEMENTARY TRAINING

2021 - 2023
